LinkedIn - S<sup>4</sup> Engineering Ltd

With our extensive product and industry knowledge we can provide our customers with new, used and reconditioned process equipment from the world's leading manufacturers. We also work within the Supply of Machinery (Safety) regulations, relevant British Standards, ATEX directives, PED, and EHEDG guidelines.

Our technical experts will respond with advice and the team will ensure that deliveries are expedited to your exact instructions.

Are you looking for a reliable supplier for a wide range of process engineering spares? Get in touch to see how S<sup>4</sup> can help!

We work with a wide range of suppliers, here are just some of the branded spares we supply:

**BARDIANI**  
VALVOLE

**guth ventile**

**CSFR**  
inox

**ISIS**  
FLUID CONTROL LTD

**SIEMENS**

**Fristam**  
Hygienic Pumping Experts

**ico**  
coolenergy

**SUPER**  
A DOVER COMPANY

**SPX**  
Waukesha  
Cherry-Burrell

**iNOXPA**

**VEGA**

**spirax**  
**sarco**

**PENTAIR**  
SÜDMO

**ALFA**  
**LAVAT**

**GEA**

**DEFINOX**  
BOOST YOUR PERFORMANCE

**KINETROL**

ifm electronic **ifm**

**AE** **Advanced Engineering**  
MIDDLETON LTD

**FrymaKoruma**  
technology in motion

**weighsol**

**Allen-Bradley**

Endress+Hauser **EH**

### We Supply:

- ✓ Valves
- ✓ Mixers & Agitators
- ✓ Homogenisers
- ✓ Pumps
- ✓ Heat Exchangers
- ✓ Pipeline & Ancillary Equipment
- ✓ Tanks & Vessels (Static & Mobile)
- ✓ Control & Instrumentation
- ✓ Used & Reconditioned Equipment
- ✓ Steam & Hot Water Packages
- ✓ Level, Pressure, Flow, & Weighing Equipment
- ✓ Electrical & Software Components

Service • Support • Supply • Solutions

We also provide recommended and critical spares packages as part of our projects or as a standalone service.

Recommended spares include frequently used items for routine maintenance, while critical spares cover essential components needed to prevent significant downtime. This ensures our customers have the necessary parts on hand to maintain smooth operations and quickly address any issues.

## Critical Spares

**Minimise Downtime:**  
Quick repairs for essential equipment.

**Maintain Productivity:**  
Ensure continuous operation.

**Compliance and Safety:**  
Meet standards and regulations.

**Cost Efficiency:**  
Avoid emergency procurement costs.

**Companies should prioritise stocking critical spare parts to ensure reliability & continuity of operations.**

## Recommended Spares

**Preventive Maintenance:**  
Facilitate routine upkeep.

**Inventory Management:**  
Balanced stock levels.

**Cost Savings:**  
Reduce last-minute purchase expenses.

**Operational Flexibility:**  
Schedule repairs efficiently.

**Recommended spares help in minimising downtime & maintaining efficiency without incurring excessive costs associated with overstocking high-impact items.**
